General information

The district center of the municipality of the Udmurt Republic "Debyesskij district" – the village of Debyesy. It is located in the North-East of Udmurtia, 145 km from the capital – the city of Izhevsk and 28 km from the railway station "Kez" Gorky railway. Izhevsk is located at 1100 km from Moscow. The population of the district is 13699. The Debyesa has a population of about 6390.

The village is located on the banks of the Cheptsya River, which empties into the River Vyatka. In the Debesy intersect North and South branches of the Siberian tract – the main roads of Russia in the 18th century that linked Moscow and Saint Petersburg from Ural and Siberian cities – Perm, Tomsk, Ekaterinburg, Omsk, Tobol'sk, etc. in the 80s of the 20th century in Debesah created and operates the Museum of the history of the Siberian tract, protected and open to the public section of the old Siberian tract.

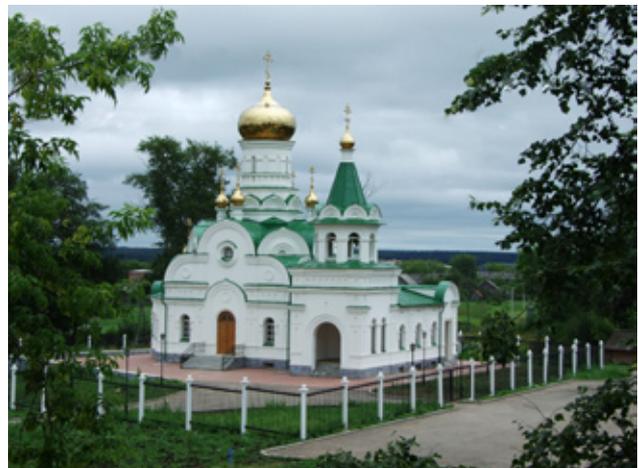

Nature is determined by the proximity of the Ural mountain range and the Kama River basin. The territory of the district is hilly, partly
